1. Company Overview

a. About Nexora Technologies

Nexora Technologies Pvt. Ltd. is a technology and digital transformation company founded in 2018 and headquartered in Bengaluru, India.

The company provides technology engineering, cloud transformation, data and artificial intelligence, cybersecurity, digital experience and managed technology services to organizations across multiple industries.

Nexora operates across India, the United Kingdom, Europe and North America.

As of 01 April 2026, Nexora has approximately **1,180 employees and approved workforce members** across its operating locations.

The company combines consulting, engineering and managed services capabilities to help customers modernize technology platforms, improve operational processes and build data-driven products.

Nexora's operating philosophy is:

> ***Understand the problem. Protect the information. Build responsibly. Deliver measurable value. Learn continuously.***

b. Company Facts

Attribute	Current Position
Legal Name	Nexora Technologies Pvt. Ltd.
Founded	2018
Headquarters	Bengaluru, India
Workforce	Approximately 1,180
Operating Model	Hybrid
Primary Markets	India, UK, Europe, North America
Core Business	Technology & Digital Transformation
Primary Currency	INR
UK Operations	London
India Operations	Bengaluru, Pune, Hyderabad

c. Global Workforce Distribution

Nexora's workforce is distributed across four principal offices.

Location	Workforce
Bengaluru	510
Pune	285
Hyderabad	250
London	135
Total	**1,180**

Bengaluru is the corporate headquarters and the largest engineering and technology center.

Pune has significant engineering, customer delivery and managed-services operations.

Hyderabad hosts engineering, cloud, data and customer delivery teams.

London serves as Nexora's principal UK commercial and customer-facing center.

The company may employ remote workers outside these office locations where business and employment arrangements permit.

d. Business Model

Nexora operates through a combination of:

- Technology consulting
- Software engineering
- Digital transformation
- Cloud transformation
- Data and analytics services
- Artificial intelligence solutions
- Cybersecurity services
- Managed services
- Product development
- Technical support

Revenue may be generated through fixed-price projects, time-and-materials engagements, managed-service contracts, subscriptions, implementation services and other approved commercial arrangements.

The specific commercial model for a customer is determined through the sales, commercial, finance and legal processes defined in the applicable corporate procedures.

---

2. History, Strategy & Values

a. Company History

Nexora was established in 2018 with the objective of providing engineering-led technology transformation services to organizations undergoing digital modernization.

The company initially focused on software engineering and technology consulting.

Between 2019 and 2021, Nexora expanded its engineering and cloud capabilities and established additional delivery operations in India.

Between 2022 and 2024, the company expanded into data engineering, analytics, cybersecurity and managed technology services.

During 2025, Nexora increased investment in artificial intelligence, automation and cloud-native engineering.

In 2026, the company operates as an integrated technology organization combining:

- Engineering
- Product
- Data & AI
- Cloud
- Cybersecurity
- Customer Delivery
- Customer Success
- Consulting
- Managed Services

b. Vision

Nexora's vision is:

> ***To help organizations build simpler, smarter and more resilient digital businesses.***

c. Mission

The company's mission is to combine engineering expertise, data, cloud technology and responsible artificial intelligence to deliver measurable outcomes for customers.

d. Core Values

Customer Impact

Nexora measures success by the value delivered to customers rather than by activity alone.

Ownership

Employees are expected to take responsibility for their commitments, decisions and outcomes.

Integrity

Nexora conducts business honestly and transparently.

Engineering Excellence

Technology solutions should be reliable, secure, maintainable and appropriate to the problem.

Responsible Innovation

New technologies should be adopted with appropriate consideration of security, privacy, ethics, cost and operational risk.

Continuous Learning

Employees are encouraged to develop skills and share knowledge.

Respect

Employees must maintain a professional environment in which colleagues, customers and partners are treated with dignity.

---

3. Organization & Business Structure

a. Organizational Model

Nexora uses a functional and business-unit structure.

The principal organizational groups are:

1. Executive Office
2. Engineering
3. Product
4. Data & AI
5. Cloud & Infrastructure
6. Digital Experience
7. Cybersecurity
8. Customer Delivery
9. Customer Success
10. Sales
11. Marketing
12. Finance
13. People Operations
14. Legal
15. Corporate IT
16. Corporate Strategy
17. Procurement & Vendor Management

Functional leadership is responsible for capability development, standards and workforce management.

Business and delivery leaders are responsible for customer outcomes, commercial performance and operational execution.

b. Business Units

Digital Engineering

Digital Engineering develops software applications, APIs, platforms and engineering solutions.

Typical capabilities include:

- Backend engineering
- Frontend engineering
- Mobile development
- Platform engineering
- Quality engineering
- DevOps
- Software architecture

Data & AI

Data & AI provides capabilities in:

- Data engineering
- Analytics
- Machine learning
- Generative AI
- AI agents
- Data science
- Business intelligence

Cloud & Infrastructure

Cloud & Infrastructure provides:

- Cloud architecture
- Infrastructure engineering
- Platform operations
- Networking
- Observability
- Reliability engineering
- Cloud migration

Digital Experience

Digital Experience focuses on customer-facing digital experiences, user interfaces and experience design.

Managed Services

Managed Services provides ongoing operational support for customer technology environments.

c. Corporate Functions

Corporate functions provide enterprise-wide services.

Function	Principal Responsibility
Finance	Financial management and controls
People Operations	Workforce and employee services
Legal	Legal and contractual matters
Corporate IT	Employee technology and internal systems
Procurement	Purchasing and vendor management
Security	Cybersecurity and information protection
Corporate Strategy	Strategy and enterprise planning
Marketing	Brand and market communication

4. Leadership & Governance

a. Executive Leadership

Nexora's principal executive leadership team is:

Executive	Position
Ananya Mehta	Chief Executive Officer
Vikram Rao	Chief Technology Officer
Daniel Thomas	Chief Operating Officer
Meera Shah	Chief Financial Officer
Kavita Menon	Chief People Officer
Arjun Malhotra	Chief Information Security Officer

b. Chief Executive Officer

The Chief Executive Officer is responsible for:

- Company strategy
- Enterprise performance
- Executive leadership
- Major customer and partner relationships
- Corporate governance
- Capital allocation at the executive level

- Organizational culture

The CEO chairs the executive leadership review.

c. Chief Technology Officer

The CTO is responsible for:

- Technology strategy
- Engineering standards
- Architecture governance
- Technology investment
- Technical capability development
- Engineering quality
- Technology innovation

The CTO sponsors the Technology Architecture Council.

d. Chief Operating Officer

The COO oversees:

- Customer delivery
- Operational performance
- Managed services
- Service quality
- Operational governance
- Cross-functional execution

e. Chief Financial Officer

The CFO is responsible for:

- Financial planning
- Budgeting
- Accounting
- Financial controls
- Treasury
- Financial reporting
- Commercial financial governance

f. Chief People Officer

The Chief People Officer oversees:

- People strategy
- Recruitment
- Compensation

- Benefits
- Performance
- Learning
- Employee relations
- Workforce planning

g. Chief Information Security Officer

The CISO is responsible for:

- Information security
- Security governance
- Cybersecurity risk
- Security operations
- Security incident management
- Security awareness
- Security compliance

---

5. Governance Bodies

a. Executive Leadership Council

The Executive Leadership Council reviews enterprise strategy and performance.

Typical membership includes:

- CEO
- CTO
- COO
- CFO
- Chief People Officer
- CISO
- Other executives as required

The council normally meets at least **monthly**.

b. Technology Architecture Council

The Technology Architecture Council reviews significant technology decisions.

Responsibilities include:

- Architecture standards
- Technology selection
- Major platform decisions
- Shared infrastructure

- Technical risk
- Architecture exceptions

The council normally meets **twice per month**.

c. Security Governance Committee

The Security Governance Committee reviews:

- Security risks
- Security incidents
- Vulnerabilities
- Compliance
- Security exceptions
- Security investments

The committee normally meets **monthly** and may convene immediately for significant incidents.

d. Data Governance Council

The Data Governance Council oversees:

- Data ownership
- Data quality
- Data classification
- Data retention
- Data access
- Data standards

The council normally meets **monthly**.

e. AI Governance Committee

The AI Governance Committee reviews significant AI initiatives.

Responsibilities include:

- AI risk
- Responsible AI
- Model governance
- AI data use
- Evaluation requirements
- Human oversight
- High-risk AI use cases

The committee normally meets **monthly** and may conduct additional reviews for high-risk projects.

f. People Leadership Council

The People Leadership Council reviews:

- Workforce planning
- Talent strategy
- Performance
- Engagement
- Leadership development
- Organizational design

The council normally meets **quarterly**.

g. Investment Review Committee

The Investment Review Committee reviews significant company investments.

Examples include:

- Major software platforms
- Infrastructure investments
- Acquisitions
- Large external contracts
- Strategic technology programs

Projects exceeding approved investment thresholds may require committee approval.

---

6. Workforce Structure

a. Workforce Categories

Nexora recognizes the following principal workforce categories:

Category	Description
Full-Time Employee	Regular employee working under an employment agreement
Part-Time Employee	Employee working a reduced schedule
Intern	Student or graduate participating in an approved internship
Fixed-Term Employee	Employee appointed for a defined employment period
Contractor	External individual engaged under an approved contract
Consultant	Specialist providing professional services

Access, benefits and responsibilities vary according to employment category and applicable law.

b. Job Levels

Nexora uses nine principal career levels.

Level	General Description
L1	Entry / Graduate
L2	Associate
L3	Professional
L4	Senior Professional
L5	Lead / Specialist
L6	Manager / Principal
L7	Senior Manager / Senior Principal
L8	Director
L9	Executive / Enterprise Leadership

Job level does not automatically determine managerial responsibility.

An L5 employee may be an individual specialist or may lead a small team depending on the role.

c. Workforce Planning

Annual workforce planning considers:

- Business demand
- Customer pipeline
- Project requirements
- Revenue expectations
- Attrition
- Skills availability
- Strategic investments

For FY2026, Nexora has approved a planning assumption of **140 net new positions** across the organization.

Workforce plans are reviewed quarterly.

---

7. Employee Lifecycle

a. Lifecycle Overview

The standard employee lifecycle is:

```
Workforce Planning
      ↓
Recruitment
      ↓
Selection
      ↓
Offer
      ↓
Pre-Joining
      ↓
Onboarding
      ↓
Probation
      ↓
Performance & Development
      ↓
Career Progression
      ↓
Internal Mobility
      ↓
Separation
```

Each stage is supported by People Operations and the relevant business function.

b. Recruitment

Recruitment must follow approved hiring procedures.

Hiring decisions should consider:

- Role requirements
- Technical capability
- Relevant experience
- Problem-solving ability
- Communication
- Collaboration
- Cultural contribution
- Compensation range
- Workforce budget

No employee may make an unauthorized employment offer on behalf of Nexora.

c. Onboarding

New employees receive an onboarding plan covering:

- Employment documentation
- Identity creation
- Corporate systems
- Security training
- Company orientation

- Team introduction
- Role expectations
- Manager check-ins

Mandatory onboarding requirements should normally be completed within the first **30 days**.

d. Probation

Standard probation for eligible new employees is **six months**, subject to applicable employment terms and law.

Managers should provide feedback throughout probation rather than waiting until the final review.

e. Internal Mobility

Employees may apply for internal roles when they meet applicable requirements.

As a general guideline, employees should have completed at least **six months in their current role** and be meeting performance expectations.

Exceptions may be approved for organizational restructuring or strategic workforce requirements.

f. Separation

Separation may occur through:

- Resignation
- Retirement
- Completion of fixed-term employment
- Redundancy
- Termination
- Other legally recognized circumstances

Separation processes include:

- Access revocation
- Asset return
- Knowledge transfer
- Final payroll processing
- Benefits closure
- Confidentiality reminders

---

8. Compensation & Benefits

a. Compensation Philosophy

Nexora aims to maintain compensation that is:

- Competitive

- Internally equitable
- Role appropriate
- Performance informed
- Market aware

Compensation decisions consider:

- Job level
- Role
- Skills
- Experience
- Location
- Market conditions
- Performance
- Internal equity

b. Compensation Structure

A typical employee compensation package may contain:

- Fixed/base salary
- Variable compensation
- Allowances
- Benefits
- Approved incentives

Example annual package:

Component	Example
Base Salary	₹900,000
Variable Target	₹90,000
Benefits	₹72,000
Allowances	₹48,000
Illustrative Total	**₹1,110,000**

This example is illustrative and does not establish a compensation entitlement.

c. Performance Variable Compensation

Indicative variable compensation ranges are:

Employee Group	Typical Target
Individual Contributor	5–12%
Senior Individual Contributor	8–15%

Employee Group	Typical Target
Manager	10–20%
Senior Manager	15–25%

Actual variable compensation depends on role, company performance, individual performance and applicable employment terms.

d. Benefits

Eligible employees may receive:

- Health insurance
- Life insurance
- Accident coverage
- Employee assistance services
- Wellness support
- Learning allowance
- Internet allowance
- Mobile allowance
- Meal benefits
- Statutory benefits

The standard India health-insurance coverage is **₹500,000**, subject to the applicable plan.

Optional top-ups may be available at **₹300,000, ₹500,000 or ₹1,000,000** levels.

e. Leave

Standard India employee leave may include:

Leave Type	Annual / Standard Entitlement
Paid Time Off	18 days
Sick Leave	12 days
Casual Leave	6 days
Public Holidays	Approximately 12 days
Paternity / Partner Leave	10 working days
Bereavement Leave	5 working days

Statutory leave provisions take precedence where applicable.

f. Learning Benefits

Eligible employees may receive:

- Learning allowance: **₹30,000 per year**
- Certification reimbursement: up to **₹20,000 per year**
- Conference support: up to **₹50,000 per year**

Learning programs are governed by the applicable Learning & Development standards.

---

9. Performance, Career & Learning

a. Performance Management

Nexora uses an annual performance cycle supported by periodic check-ins.

Employees normally establish **3–6 meaningful goals** each year.

Goals may cover:

- Business/customer impact
- Role delivery
- Quality
- Collaboration
- Learning
- Innovation

A representative goal-weighting model is:

Category	Weight
Business / Customer	35%
Role Delivery	25%
Quality	15%
Collaboration	10%
Learning	10%
Innovation	5%

b. Performance Ratings

The standard rating scale is:

Rating	Meaning
1	Does Not Meet
2	Partially Meets
3	Meets

Rating	Meaning
4	Exceeds
5	Exceptional

Performance ratings are one input into career and compensation decisions and are not the sole determinant of promotion.

c. Career Development

Employees are encouraged to maintain development plans covering:

- Technical skills
- Functional capability
- Leadership
- Communication
- Business knowledge
- Certifications

Employees should have at least **two structured career conversations per year** where practical.

d. Learning

Nexora maintains structured academies and learning programs covering:

- Engineering
- Cloud
- Data
- AI
- Security
- Leadership
- Product
- Professional skills

The FY2026 enterprise learning budget is **₹3.2 crore**.

The organization targets:

- At least 90% learning participation
- At least 98% mandatory training completion
- Average annual learning of 32 hours
- At least 92% development-plan coverage

10. Workplace & Employee Experience

a. Hybrid Working

Nexora operates a hybrid working model.

Specific working arrangements depend on:

- Role
- Customer requirements
- Team requirements
- Security requirements
- Office availability
- Applicable employment terms

Employees working remotely remain responsible for maintaining an appropriate work environment and protecting company information.

b. Office Locations

Nexora maintains principal offices in:

- Bengaluru
- Pune
- Hyderabad
- London

Office access is controlled through Corporate IT and security systems.

c. Workplace Conduct

Employees are expected to:

- Treat colleagues respectfully
- Communicate professionally
- Protect confidential information
- Follow security requirements
- Maintain appropriate workplace behavior
- Respect customer and partner environments

Harassment, discrimination, retaliation, bullying and workplace violence are prohibited.

d. Employee Wellbeing

Nexora provides programs intended to support employee wellbeing.

Examples include:

- Employee assistance services

- Wellness programs
- Learning
- Manager support
- Flexible working arrangements where practical

The employee assistance program provides up to **six counseling sessions per eligible employee per year**, subject to plan terms.

---

11. Corporate Systems & Internal Services

a. PeopleHub

Nexora PeopleHub is the primary employee and HR platform.

Typical functions include:

- Employee profiles
- Leave
- Compensation information
- Performance
- Learning
- Benefits
- Employee documentation

b. ServiceDesk

Nexora ServiceDesk is the primary internal technology support platform.

Employees use ServiceDesk for:

- Hardware requests
- Software access
- IT incidents
- Password/access assistance
- Equipment issues
- Corporate technology requests

c. Workspace

Nexora Workspace provides approved collaboration capabilities.

Typical uses include:

- Email
- Calendar
- Documents
- Team collaboration

- Internal communication

d. Identity

Nexora Identity provides centralized identity and access management.

It supports:

- Authentication
- Access requests
- Role-based access
- Multi-factor authentication
- Employee lifecycle access

e. KnowledgeHub

Nexora KnowledgeHub contains approved internal knowledge.

It may include:

- Policies
- Procedures
- Technical documentation
- FAQs
- Service information
- Organizational information

f. Enterprise Platforms

Additional internal platforms include:

Platform	Primary Purpose
Nexora Insight	Enterprise analytics
Nexora Flow	Workflow automation
Nexora Sentinel	Security monitoring
Nexora Assist	Enterprise AI assistance

Access to these platforms depends on role and authorization.

12. Information, Technology & Employee Responsibilities

a. Information Classification

Nexora uses four primary information classifications:

Classification	Description
Public	Approved for public distribution
Internal	Intended for Nexora workforce
Confidential	Sensitive business information
Restricted	Highly sensitive information requiring enhanced controls

Employees must handle information according to its classification.

b. Employee Technology

Company-managed devices must be used according to Corporate IT standards.

Employees must:

- Use approved software
- Install required security updates
- Protect company devices
- Use approved authentication
- Report lost or stolen devices promptly

c. Access

Access should be based on business need.

Employees must not:

- Share credentials
- Bypass access controls
- Use another employee's account
- Attempt unauthorized access
- Copy restricted information to unauthorized locations

d. Security Training

Security awareness training is mandatory.

Employees should complete required security training within the specified period.

The enterprise target for mandatory security training is **98% or higher completion**.

e. Artificial Intelligence

Employees using AI tools must comply with the Responsible AI and Generative AI Policy.

Confidential or Restricted information must not be entered into unauthorized external AI services.

Approved enterprise AI tools may be used according to their access and data-handling controls.

---

13. Corporate Decision-Making & Accountability

a. Decision Principles

Nexora decisions should consider:

1. Customer impact
2. Employee impact
3. Security
4. Legal and regulatory requirements
5. Financial impact
6. Operational feasibility
7. Long-term sustainability

b. Delegation

Executives may delegate decision authority to appropriate leaders.

Delegated authority should be:

- Documented
- Within approved limits
- Traceable
- Subject to applicable controls

Delegation does not remove accountability from the responsible executive.

c. Approval Thresholds

Different functions maintain specific approval thresholds.

Examples include:

- Hiring approvals
- Compensation exceptions
- Procurement
- Expenses
- Customer discounts
- Technology investments

- Security exceptions

The applicable functional policy determines the final approval requirement.

d. Escalation

Employees should escalate matters when:

- A significant customer commitment is at risk
- A security incident occurs
- Legal obligations may be affected
- Financial controls may have been breached
- A major operational failure occurs
- An employee safety issue exists

Escalation should occur early rather than after a situation becomes irreversible.

---

14. Corporate Risk & Compliance

a. Risk Management

Nexora manages risk across:

- Strategic
- Financial
- Operational
- Technology
- Cybersecurity
- Legal
- Compliance
- Customer
- Workforce
- Third-party

Material risks are recorded in appropriate risk registers.

b. Risk Rating

A simplified risk model may consider:

Risk Score = Likelihood × Impact

Each dimension may use a five-point scale.

Score	Classification
1–4	Low

Score	Classification
5–9	Moderate
10–16	High
17–25	Critical

Business functions may use more detailed risk models where required.

c. Compliance

Employees must comply with:

- Applicable laws
- Employment requirements
- Customer contractual obligations
- Information-security requirements
- Privacy requirements
- Financial controls
- Company policies

Where a local legal requirement conflicts with an internal policy, the matter must be escalated to Legal or People Operations as appropriate.

d. Internal Audit

Nexora may conduct internal audits covering:

- Financial controls
- Security
- Access
- Procurement
- Customer commitments
- Data handling
- Operational processes

Audit findings are assigned owners and target completion dates.

---

15. Communication & Corporate Information

a. Internal Communication

Approved communication channels include:

- Corporate email
- Nexora Workspace

- Internal collaboration tools
- KnowledgeHub
- Official company announcements

Business-critical decisions should not rely solely on informal messaging.

b. External Communication

Only authorized employees may make official public statements on behalf of Nexora.

Media requests should be directed to the appropriate Corporate Communications or executive contact.

c. Social Media

Employees may maintain personal social-media accounts but must not:

- Disclose confidential information
- Publish restricted customer information
- Misrepresent themselves as official company representatives
- Share non-public company announcements
- Publish proprietary technology without authorization

d. Records

Corporate records must be maintained according to applicable retention requirements.

Employees must not intentionally delete or alter records subject to legal hold, investigation or audit.

---

16. Employee Responsibilities & Corporate Standards

a. General Responsibilities

Every employee is responsible for:

- Performing their role professionally
- Protecting company information
- Following applicable policies
- Completing mandatory training
- Maintaining accurate records
- Reporting significant risks
- Treating others respectfully
- Protecting customer information
- Using company resources responsibly

b. Managers

Managers additionally have responsibility for:

- Setting expectations
- Providing feedback
- Supporting development
- Managing performance
- Maintaining team communication
- Escalating risks
- Protecting employee wellbeing
- Ensuring policy compliance

c. Leaders

Leaders are expected to:

- Model company values
- Make transparent decisions
- Maintain appropriate controls
- Develop organizational capability
- Manage enterprise risk
- Protect customer trust

d. Conflicts of Interest

Employees must disclose situations where personal interests may conflict with company responsibilities.

Examples include:

- Financial interests in a supplier
- Outside employment affecting company duties
- Personal relationships affecting procurement decisions
- Use of company information for personal benefit

Disclosures should be made through the approved People Operations or Legal process.

e. Gifts & Hospitality

Employees must not accept or provide gifts or hospitality that could improperly influence a business decision.

Where applicable, gifts and hospitality must follow the limits and approval requirements established by Finance and Legal.

17. Corporate Planning & Performance

a. Annual Planning

Nexora's annual planning process typically includes:

1. Strategic review
2. Market assessment
3. Revenue planning
4. Workforce planning
5. Investment planning
6. Technology planning
7. Risk planning
8. Operating-budget approval

The annual operating plan is approved by executive leadership.

b. Quarterly Reviews

Business performance is reviewed quarterly.

Typical metrics include:

- Revenue
- Gross margin
- Pipeline
- Utilization
- Customer satisfaction
- Employee engagement
- Attrition
- Delivery performance
- Security posture
- Product performance

c. Workforce Metrics

People Operations may report:

- Headcount
- Hiring
- Attrition
- Internal mobility
- Promotion
- Engagement
- Training completion
- Performance-cycle completion

d. 2026 Enterprise Targets

Illustrative FY2026 organizational targets include:

Metric	Target
Mandatory training completion	≥98%
Performance review completion	≥98%
Development-plan coverage	≥92%
Employee engagement	≥78%
First-year retention	≥90%
Manager effectiveness	≥4.0 / 5
Learning participation	≥90%
Internal mobility	≥100 moves

These targets are management objectives and may be revised through the annual operating process.
