Nexora Technologies Pvt. Ltd.

Sales, Marketing, Finance, Procurement & Commercial Operations Handbook

Document ID: NXR-COM-007
Document Type: Sales, Marketing, Finance, Procurement & Commercial Operations Handbook
Classification: Internal
Version: 7.0
Effective Date: 1 October 2026
Document Owner: Chief Operating Officer
Executive Sponsors: Meera Shah, Chief Financial Officer; Daniel Thomas, Chief Operating Officer
Approved By: Executive Leadership Council
Review Cycle: Annual, with interim updates for material changes to commercial, financial, regulatory, or procurement requirements

---

1. Purpose, Scope & Commercial Operating Philosophy

a. Purpose

Nexora Technologies Pvt. Ltd. operates across India, the UK, Europe, and North America, providing digital engineering, data and AI, cloud and infrastructure, cybersecurity, digital experience, managed services, and technology consulting.

This handbook establishes the operating framework for:

I. Sales management
II. Account management
III. Business development
IV. Marketing
V. Pricing and commercial approvals
VI. Contract-to-cash processes
VII. Financial planning and control
VIII. Revenue management
IX. Procurement
X. Vendor management
XI. Expense management
XII. Budgeting and forecasting
XIII. Commercial risk management
XIV. Financial reporting

b. Scope

This handbook applies to:

I. Sales
II. Account Management
III. Business Development
IV. Marketing
V. Finance
VI. Procurement
VII. Vendor Management
VIII. Customer Delivery where commercial commitments are involved
IX. Executive Leadership
X. Employees submitting business expenses or purchase requests

c. Commercial Principles

Nexora operates according to the following principles:

I. Sustainable Growth

Revenue growth must be supported by healthy margins, delivery capability, and customer value.

II. Accurate Commitments

Commercial commitments must reflect realistic delivery capability.

III. Financial Discipline

Spending must have a legitimate business purpose and an accountable owner.

IV. Customer Value

Pricing and commercial proposals should be connected to measurable customer outcomes.

V. Segregation of Duties

No individual should control incompatible stages of a material financial transaction.

VI. Transparency

Material commercial and financial risks must be visible to the appropriate decision-makers.

VII. Responsible Procurement

Suppliers are evaluated not only on price but also on capability, reliability, security, quality, and total cost.

VIII. Long-Term Relationships

Nexora seeks sustainable customer and supplier relationships rather than short-term transactions that create unacceptable operational risk.

2. Commercial Organization & Responsibilities

a. Commercial Organization

The commercial organization consists of:

I. Sales
II. Strategic Accounts
III. Business Development
IV. Marketing
V. Revenue Operations
VI. Commercial Finance
VII. Corporate Finance
VIII. Procurement
IX. Vendor Management

b. Chief Financial Officer

Meera Shah, Chief Financial Officer, is accountable for:

I. Financial strategy
II. Financial reporting
III. Budgeting
IV. Treasury
V. Tax coordination
VI. Financial controls
VII. Commercial finance
VIII. Financial risk

c. Chief Operating Officer

Daniel Thomas, Chief Operating Officer, oversees:

I. Customer Delivery
II. Customer Success
III. Operational performance
IV. Commercial execution
V. Resource planning
VI. Service operations

d. Sales Leadership

Sales leadership is accountable for:

I. Revenue generation
II. Pipeline health
III. Account strategy
IV. Forecast accuracy
V. Sales performance
VI. Customer relationships

e. Procurement

Procurement is responsible for:

I. Supplier sourcing
II. Supplier evaluation
III. Purchase orders
IV. Commercial negotiations
V. Vendor onboarding
VI. Contract coordination
VII. Supplier performance

f. Finance Business Partners

Finance business partners work with operational teams to evaluate:

I. Budget requirements
II. Forecasts
III. Margin
IV. Investment proposals
V. Commercial performance
VI. Cost trends

---

3. Sales Strategy, Markets & Account Management

a. Market Segments

Nexora serves organizations across:

I. Financial Services
II. Retail and Consumer
III. Healthcare and Life Sciences
IV. Manufacturing
V. Technology
VI. Telecommunications
VII. Professional Services
VIII. Public and regulated sectors where appropriate

b. Geographic Markets

Primary commercial markets include:

Region	Primary Focus
India	Digital engineering, data, cloud, managed services
UK	Digital transformation, data, cloud, customer experience
Europe	Data, AI, engineering, cybersecurity
North America	Engineering, cloud, data and AI

c. Account Segmentation

Accounts may be classified as:

Tier 1 — Strategic

Large or strategically important customers requiring executive engagement.

Tier 2 — Growth

Customers with significant expansion potential.

Tier 3 — Managed

Customers requiring structured account management but lower executive involvement.

Tier 4 — Transactional

Smaller or limited-scope relationships.

d. Account Planning

Strategic account plans should include:

I. Customer objectives
II. Current services
III. Contract value
IV. Revenue history
V. Customer stakeholders
VI. Competitive environment
VII. Delivery health
VIII. Expansion opportunities
IX. Renewal risks
X. Executive relationships

e. Account Reviews

Strategic accounts should be reviewed at least monthly by the account team.

Review areas include:

I. Revenue
II. Pipeline
III. Delivery health
IV. Customer satisfaction
V. Renewal status
VI. Expansion opportunities
VII. Commercial risks

4. Sales Pipeline & Opportunity Management

a. Opportunity Lifecycle

Nexora's standard sales lifecycle is:

1. Lead
2. Qualification
3. Discovery
4. Solution Development
5. Proposal
6. Commercial Negotiation
7. Contract Review
8. Closed Won
9. Delivery Handover
10. Closed Lost

b. Lead Qualification

A sales opportunity should be assessed for:

I. Customer need
II. Business impact
III. Decision process
IV. Budget
V. Timeline
VI. Competitive environment
VII. Nexora capability
VIII. Delivery feasibility

c. Opportunity Stages

Stage	Indicative Probability
Qualified	20%
Discovery	30%
Solution	45%
Proposal	60%
Negotiation	80%
Contracted	100%

Probabilities are forecasting guidelines and do not represent guarantees.

d. Pipeline Hygiene

Sales representatives must keep opportunity records current.

Required information includes:

I. Customer
II. Opportunity value
III. Currency
IV. Stage
V. Expected close date
VI. Sales owner
VII. Delivery assumptions
VIII. Decision makers
IX. Next action
X. Competitive position

e. Opportunity Aging

Opportunities that remain unchanged for extended periods should be reviewed.

Aged opportunities may be:

I. Requalified
II. Reforecast
III. Returned to an earlier stage
IV. Closed as lost
V. Retained with documented justification

---

5. Proposals, Pricing & Commercial Approval

a. Proposal Development

A proposal should communicate:

I. Customer problem
II. Proposed solution
III. Scope
IV. Deliverables
V. Timeline
VI. Team structure
VII. Assumptions
VIII. Dependencies
IX. Commercial model
X. Customer responsibilities

b. Pricing Models

Nexora may use:

I. Time and materials
II. Fixed price
III. Milestone-based pricing
IV. Managed service subscription
V. Outcome-based pricing where appropriate
VI. Hybrid commercial models

c. Pricing Considerations

Pricing decisions should consider:

I. Delivery effort
II. Skill mix
III. Geography
IV. Infrastructure cost
V. Third-party licenses
VI. Delivery risk
VII. Customer value
VIII. Target margin
IX. Contract duration

d. Commercial Approval Thresholds

Illustrative approval levels are:

Commercial Value	Approval
Up to ₹25 lakh	Business Unit approval
₹25 lakh–₹1 crore	Business Unit + Finance
₹1–₹5 crore	CFO delegate + COO delegate
Above ₹5 crore	CFO + COO
Material strategic commitment	Executive Leadership Council

Equivalent foreign-currency thresholds may be applied using the approved Finance exchange-rate methodology.

e. Non-Standard Terms

Additional approval is required for material:

I. Unlimited liability
II. Uncapped service credits
III. Unusual termination rights
IV. Non-standard payment terms
V. Significant penalties
VI. Customer-specific security obligations
VII. Intellectual-property deviations

Legal and Finance must be engaged where applicable.

6. Contracts, Order Management & Contract-to-Cash

a. Contract Review

Before signing a material customer agreement, the responsible teams review:

I. Scope
II. Pricing
III. Payment terms
IV. Taxes
V. Liability
VI. Intellectual property
VII. Confidentiality
VIII. Security
IX. Privacy
X. Service levels
XI. Termination
XII. Change-control requirements

b. Statement of Work

A Statement of Work should establish:

I. Objectives
II. Scope
III. Deliverables
IV. Milestones
V. Acceptance criteria
VI. Customer responsibilities
VII. Nexora responsibilities
VIII. Commercial terms
IX. Assumptions
X. Exclusions

c. Contract Repository

Executed contracts should be stored in the approved enterprise contract repository.

Relevant metadata should include:

I. Customer
II. Contract number
III. Effective date
IV. Expiration date
V. Contract value
VI. Currency
VII. Account owner
VIII. Renewal date

d. Order Management

Customer purchase orders should be matched against applicable commercial agreements.

Delivery should not assume that an informal customer request constitutes commercial authorization.

e. Contract-to-Cash

The standard lifecycle is:

1. Contract
2. Purchase Order
3. Delivery
4. Milestone or time confirmation
5. Invoice
6. Customer payment
7. Reconciliation
8. Revenue reporting

---

7. Marketing Strategy & Brand Management

a. Marketing Objectives

Marketing supports:

I. Brand awareness
II. Demand generation
III. Thought leadership
IV. Customer engagement
V. Employer brand
VI. Product awareness
VII. Sales enablement

b. Marketing Channels

Nexora may use:

I. Website
II. Search
III. LinkedIn
IV. Industry events
V. Webinars
VI. Email campaigns
VII. Analyst relations
VIII. Partner marketing
IX. Technical publications

c. Content Categories

Content may include:

I. Technical articles
II. Customer case studies
III. Industry reports
IV. Product announcements
V. Research
VI. Webinars
VII. Executive commentary
VIII. Solution briefs

d. Marketing Approval

External content involving:

I. Customer names
II. Customer logos
III. Customer data
IV. Confidential technology
V. Financial performance claims
VI. Regulatory claims

requires appropriate approval before publication.

e. Customer Case Studies

A case study should not disclose customer information without appropriate authorization.

Case studies should distinguish:

I. Verified customer facts
II. Nexora analysis
III. Illustrative estimates

---

8. Marketing Operations, Demand Generation & Sales Enablement

a. Lead Generation

Marketing-generated leads should be captured in approved systems.

Information may include:

I. Company
II. Contact
III. Role
IV. Industry
V. Interest
VI. Campaign source
VII. Consent or communication preference where required

b. Lead Qualification

Marketing and Sales should agree on lead qualification criteria.

Potential criteria include:

I. Organization fit
II. Business need
III. Buying intent
IV. Budget potential
V. Timeline
VI. Decision-maker engagement

c. Campaign Measurement

Marketing measures:

I. Reach
II. Engagement
III. Qualified leads
IV. Conversion rate
V. Pipeline contribution
VI. Customer acquisition cost
VII. Campaign ROI

d. Sales Enablement

Sales enablement materials may include:

I. Solution presentations
II. Case studies
III. Product documentation
IV. Competitive positioning
V. Pricing guidance
VI. Technical capability summaries

Sales teams must use current approved materials.

e. Marketing Data

Marketing data must be handled according to applicable privacy and security requirements.

Personal information should be collected only for legitimate business purposes.

---

9. Financial Planning, Budgeting & Forecasting

a. Financial Planning

Finance coordinates annual planning across:

I. Revenue
II. Cost of delivery
III. Operating expenses
IV. Capital expenditure
V. Hiring
VI. Technology investment
VII. Marketing investment

b. Annual Budget

Business functions submit budget proposals covering:

I. People costs
II. Technology
III. Travel
IV. Professional services
V. Marketing
VI. Training
VII. Facilities
VIII. Other operating expenses

c. Budget Ownership

Every material budget has:

I. Cost center
II. Budget owner
III. Approved amount
IV. Period
V. Spend category

d. Forecasting

Finance forecasts should incorporate:

I. Actual performance
II. Contracted revenue
III. Pipeline
IV. Delivery capacity
V. Hiring
VI. Known costs
VII. Risks

e. Forecast Accuracy

Forecasts should be updated periodically.

Material changes should be explained rather than hidden through arbitrary adjustments.

10. Revenue, Billing, Collections & Financial Controls

a. Revenue Recognition

Revenue recognition follows applicable accounting requirements and Finance policy.

Operational teams provide Finance with accurate information regarding:

I. Contract status
II. Delivery milestones
III. Acceptance
IV. Customer obligations
V. Project progress

b. Billing

Billing may be based on:

I. Time and materials
II. Milestones
III. Fixed-price schedules
IV. Managed services
V. Subscription arrangements

c. Invoice Validation

Before invoice submission, Finance verifies:

I. Customer
II. Contract
III. Purchase order
IV. Billing period
V. Amount
VI. Tax treatment
VII. Supporting documentation

d. Accounts Receivable

Finance monitors:

I. Invoice aging
II. Outstanding balance
III. Disputed invoices
IV. Collection status
V. Customer payment behavior

e. Example Aging Categories

Aging	Category
Current	0–30 days

Aging	Category
Watch	31–60 days
Concern	61–90 days
Escalation	91–120 days
Critical	>120 days

Customer-specific contractual payment terms must be considered.

f. Collections Escalation

Aged receivables may be escalated through:

I. Account Management
II. Finance Business Partner
III. Sales Leadership
IV. CFO organization
V. Legal where appropriate

---

11. Expense Management & Employee Financial Responsibilities

a. Business Expenses

Employees may incur approved business expenses for:

I. Customer travel
II. Business travel
III. Conferences
IV. Customer meetings
V. Approved professional activities
VI. Business purchases

b. Expense Approval

Expenses require:

I. Legitimate business purpose
II. Appropriate supporting documentation
III. Correct cost center
IV. Manager approval
V. Additional approval where required

c. Expense Categories

Typical expense categories include:

Category	Examples
Travel	Flights, trains, hotels
Meals	Business meals
Local transport	Taxi, approved transport
Training	Approved courses
Events	Conferences
Client engagement	Customer meetings

d. Expense Submission

Employees should submit expenses promptly after the expense occurs.

Required information may include:

I. Date
II. Amount
III. Currency
IV. Business purpose
V. Customer/project
VI. Receipt

e. Prohibited Expenses

Expenses must not include:

I. Personal purchases
II. Fines or penalties caused by personal misconduct
III. Unapproved entertainment
IV. Unauthorized upgrades
V. Expenses intentionally split to bypass approval thresholds

---

12. Procurement Strategy & Supplier Management

a. Procurement Philosophy

Procurement seeks the best overall business outcome rather than the lowest purchase price alone.

Supplier evaluation considers:

I. Price
II. Quality
III. Capability
IV. Security
V. Reliability
VI. Delivery time

VII. Support
VIII. Financial stability
IX. Total cost of ownership

b. Procurement Lifecycle

The standard process is:

1. Requirement
2. Budget confirmation
3. Purchase request
4. Supplier identification
5. Sourcing
6. Evaluation
7. Negotiation
8. Approval
9. Purchase order
10. Delivery
11. Invoice
12. Payment
13. Supplier review

c. Purchase Requests

A purchase request should include:

I. Business purpose
II. Required item/service
III. Quantity
IV. Estimated cost
V. Cost center
VI. Required date
VII. Supplier where known
VIII. Contract reference where applicable

d. Competitive Sourcing

For material purchases, Procurement may obtain multiple quotations.

Example guideline:

Purchase Value	Typical Sourcing
<₹1 lakh	Standard approval
₹1–₹10 lakh	Competitive review where practical
₹10–₹50 lakh	Multiple quotations expected
>₹50 lakh	Formal sourcing process

Exceptions may apply for sole-source requirements, renewals, proprietary technology, or urgent business continuity requirements.

e. Supplier Selection

Supplier decisions should document:

I. Evaluation criteria
II. Commercial comparison
III. Technical assessment
IV. Security assessment where required
V. Recommendation
VI. Approval

---

13. Vendor Risk, Contracts & Third-Party Governance

a. Vendor Categories

Suppliers may include:

I. Cloud providers
II. Software vendors
III. Professional services firms
IV. Recruitment partners
V. Hardware suppliers
VI. Facilities suppliers
VII. Marketing providers
VIII. Data providers

b. Vendor Risk

Vendor risk may involve:

I. Information security
II. Privacy
III. Operational dependency
IV. Financial stability
V. Business continuity
VI. Regulatory compliance
VII. Geographic exposure

c. Vendor Security

High-risk suppliers may require security review aligned with Nexora's security framework.

Assessment may cover:

I. Access controls
II. Encryption
III. Incident response

IV. Data handling
V. Business continuity
VI. Vulnerability management
VII. Subprocessors

d. Vendor Contracts

Material supplier contracts should address:

I. Scope
II. Pricing
III. Service levels
IV. Confidentiality
V. Security
VI. Privacy
VII. Intellectual property
VIII. Termination
IX. Data return or deletion

e. Supplier Performance

Strategic suppliers may be reviewed quarterly.

Metrics may include:

I. Delivery reliability
II. Service quality
III. SLA compliance
IV. Cost performance
V. Security performance
VI. Responsiveness

---

14. Purchase Orders, Accounts Payable & Supplier Payments

a. Purchase Orders

A purchase order provides formal authorization for approved procurement.

Employees should not instruct suppliers to begin material work without appropriate authorization.

b. Three-Way Matching

Where applicable, Finance may use three-way matching:

Purchase Order → Receipt → Invoice

Differences should be investigated.

c. Invoice Review

Supplier invoices are checked for:

I. Supplier identity
II. Purchase order
III. Quantity
IV. Price
V. Taxes
VI. Delivery evidence
VII. Contract compliance

d. Payment Terms

Standard payment terms may vary according to supplier and contract.

Finance should monitor:

I. Due dates
II. Early-payment opportunities
III. Disputed invoices
IV. Supplier holds

e. Duplicate Payments

Finance controls should reduce the risk of:

I. Duplicate invoices
II. Duplicate vendors
III. Unauthorized bank changes
IV. Incorrect payment amounts

Requests to change supplier bank details require independent verification.

---

15. Financial Risk, Fraud Prevention & Internal Controls

a. Financial Risk

Financial risk may arise from:

I. Customer concentration
II. Receivables
III. Currency fluctuations
IV. Supplier dependency
V. Pricing errors
VI. Unauthorized spending
VII. Fraud
VIII. Contractual penalties

b. Segregation of Duties

Material transactions should separate:

I. Request
II. Approval
III. Procurement
IV. Receipt confirmation
V. Payment

One individual should not control the entire transaction where practical.

c. Fraud Indicators

Potential warning signs include:

I. Unusual payment requests
II. Urgent bank-account changes
III. Supplier pressure to bypass controls
IV. Duplicate invoices
V. Unexpected discounts
VI. Personal relationships influencing procurement decisions

d. Financial Fraud Reporting

Suspected fraud must be reported through appropriate Finance, Legal, Security, or ethics channels.

Employees must not independently investigate suspected financial misconduct beyond their authorized responsibilities.

e. Conflict of Interest

Employees must disclose material conflicts involving:

I. Suppliers
II. Customers
III. Partners
IV. Personal financial interests
V. Family relationships
VI. Gifts or benefits

---

16. Commercial Risk, Deal Governance & Contract Exceptions

a. Deal Risk Review

Material deals should consider:

I. Commercial margin
II. Delivery complexity
III. Customer dependency

IV. Security obligations
V. Data requirements
VI. Liability
VII. Payment terms
VIII. Intellectual property
IX. Staffing
X. Third-party costs

b. Non-Standard Commercial Terms

Examples include:

I. Extended payment terms
II. Significant penalties
III. Guaranteed staffing
IV. Uncapped liability
V. Unlimited support
VI. Customer ownership of Nexora reusable IP
VII. Unusual termination provisions

c. Deal Desk

For material opportunities, a cross-functional deal review may involve:

I. Sales
II. Finance
III. Delivery
IV. Legal
V. Security
VI. Procurement
VII. Technology leadership

d. Deal Approval Example

Opportunity ID: NXR-OPP-2026-083

Estimated Contract Value: ₹8.4 crore

Term: 24 months

Service: Data and AI Managed Services

Key Risks:

I. Customer requires 24×7 support
II. Customer requires accelerated onboarding
III. Data-processing obligations span India and UK
IV. SLA penalties exceed standard terms

The opportunity requires Finance, Delivery, Security, and Legal review before final commercial commitment.

17. Financial Reporting, Management Information & Business Performance

a. Financial Reporting

Finance produces reports covering:

I. Revenue
II. Gross margin
III. Operating expenses
IV. EBITDA-related measures
V. Cash position
VI. Accounts receivable
VII. Accounts payable
VIII. Capital expenditure
IX. Forecast

b. Management Reporting

Leadership reporting should distinguish:

I. Actuals
II. Budget
III. Forecast
IV. Variance
V. Prior period

c. Variance Analysis

Material variances should include explanations.

Example:

Budget: ₹12.0 crore

Actual: ₹13.4 crore

Variance: ₹1.4 crore unfavorable

Possible causes:

I. Additional cloud infrastructure
II. Accelerated hiring
III. Customer travel
IV. Third-party software costs

d. Business Unit Performance

Business units may be evaluated using:

I. Revenue
II. Gross margin
III. Utilization

IV. Pipeline
V. Bookings
VI. Customer retention
VII. Delivery efficiency

e. Monthly Close

Finance performs a controlled monthly close process.

Activities may include:

I. Revenue reconciliation
II. Expense accruals
III. Accounts receivable reconciliation
IV. Accounts payable reconciliation
V. Payroll reconciliation
VI. Bank reconciliation
VII. Intercompany reconciliation

---

18. Treasury, Cash Management & Tax Coordination

a. Treasury

Finance manages:

I. Cash balances
II. Banking relationships
III. Liquidity
IV. Payment schedules
V. Foreign-currency exposure

b. Cash Forecast

Cash forecasting considers:

I. Customer collections
II. Payroll
III. Supplier payments
IV. Taxes
V. Capital expenditure
VI. Financing obligations

c. Foreign Currency

Nexora operates across multiple currencies.

Finance may monitor:

I. GBP
II. EUR
III. USD
IV. INR

Foreign-currency exposure should be considered in material commercial commitments.

d. Tax

Finance coordinates applicable:

I. Corporate taxes
II. Indirect taxes
III. Withholding taxes
IV. Cross-border tax matters

Tax advice must be obtained from appropriate Finance or external specialists where required.

---

19. Commercial Systems & Data

a. Commercial Systems

Approved enterprise systems may include:

I. Nexora Insight
II. Nexora Flow
III. Nexora Workspace
IV. Nexora KnowledgeHub
V. Finance systems
VI. CRM systems
VII. Procurement systems

b. CRM Data

Sales teams are responsible for maintaining accurate CRM information.

Important fields include:

I. Account
II. Opportunity
III. Stage
IV. Value
V. Close date
VI. Owner
VII. Probability
VIII. Next action

c. Commercial Reporting

Commercial dashboards should use controlled definitions for:

I. Bookings
II. Revenue
III. Pipeline
IV. Win rate
V. Forecast
VI. Customer retention

d. Access

Commercial information may contain Confidential information.

Access must be granted according to role and business need.

---

20. Commercial Operating Metrics

a. Sales Metrics

Sales leadership reviews:

I. Pipeline value
II. Pipeline coverage
III. Win rate
IV. Average deal size
V. Sales cycle
VI. Forecast accuracy
VII. New-logo revenue
VIII. Expansion revenue

b. Marketing Metrics

Marketing reviews:

I. Qualified leads
II. Conversion rate
III. Campaign contribution
IV. Engagement
V. Pipeline sourced
VI. Marketing ROI

c. Finance Metrics

Finance reviews:

I. Revenue
II. Gross margin
III. Operating expense
IV. Cash position
V. Receivables aging
VI. Forecast accuracy

d. Procurement Metrics

Procurement reviews:

I. Spend under management
II. Savings
III. Supplier performance
IV. Purchase-order compliance
V. Contract coverage
VI. Supplier concentration

e. Example Enterprise Targets

Metric	Example Target
Sales forecast accuracy	≥85%
Strategic account review completion	100%
Marketing-qualified lead follow-up	≤2 business days
Critical supplier review completion	100%
Purchase-order compliance	≥95%
Material supplier contracts documented	≥98%
Invoice processing within SLA	≥95%

21. Commercial Planning Example

a. Annual Business Plan

An illustrative annual planning scenario:

Planned Revenue: ₹310 crore

Planned Delivery Gross Margin: 34%

Planned Operating Expense: ₹72 crore

Planned Technology Investment: ₹18 crore

Planned Marketing Investment: ₹6.5 crore

Planned Workforce Growth: 140 net-new positions

These figures represent an internal planning example and are subject to annual approval.

b. Revenue Mix

Illustrative revenue composition:

Service Area	Share
Digital Engineering	28%
Data & AI	22%
Cloud & Infrastructure	18%
Managed Services	15%
Digital Experience	9%
Cybersecurity	5%
Technology Consulting	3%

c. Planning Review

Finance and business leadership assess:

I. Revenue assumptions
II. Pipeline coverage
III. Hiring requirements
IV. Delivery capacity
V. Margin assumptions
VI. Investment requirements
VII. Risk factors

---

22. Reference Procurement Case

a. Requirement

Corporate IT requires 250 laptops for planned workforce growth and replacement.

b. Requirement Value

Estimated purchase value:

₹2.25 crore

c. Procurement Process

Procurement receives:

I. Technical specification
II. Quantity
III. Delivery schedule
IV. Warranty requirements
V. Security requirements
VI. Support requirements

Three suppliers are evaluated.

d. Evaluation

Criteria	Weight
Technical capability	25%
Price	25%
Warranty/support	20%
Delivery capability	15%
Security/compliance	10%
Supplier stability	5%

e. Decision

The selected supplier is not necessarily the lowest-cost supplier.

The evaluation considers total value and operational risk.

f. Post-Purchase

Corporate IT confirms:

I. Quantity received
II. Asset identifiers
III. Device specifications
IV. Warranty
V. Delivery condition

Finance matches the invoice against the approved purchase order and receipt.

---

23. Reference Sales Opportunity

a. Opportunity

Opportunity ID: NXR-OPP-2026-104

Customer: Alpine Financial Services

Service: Cloud Modernization and Data Platform

Estimated Value: ₹5.8 crore

Expected Term: 18 months

b. Customer Objective

The customer seeks to:

I. Modernize legacy applications
II. Improve analytics
III. Reduce infrastructure complexity
IV. Improve deployment frequency
V. Establish a governed data platform

c. Proposed Nexora Services

I. Cloud architecture
II. Application modernization
III. Data engineering
IV. Analytics
V. Platform engineering
VI. Managed cloud services

d. Commercial Review

Finance evaluates:

I. Delivery effort
II. Staffing
III. Cloud cost
IV. Third-party licensing
V. Expected margin
VI. Payment schedule

Delivery evaluates feasibility.

Security evaluates customer requirements.

Legal reviews contractual terms.

e. Handover

If the opportunity becomes Closed Won, Sales provides Delivery with the approved commercial and scope documentation before mobilization begins.

---

24. Commercial Exceptions & Approval Management

a. Exception Types

Commercial exceptions may include:

I. Pricing below approved thresholds
II. Extended payment terms
III. Non-standard discounting

IV. Unusual termination rights
V. Supplier exceptions
VI. Procurement bypass requests
VII. Budget overrun
VIII. Non-standard customer commitments

b. Exception Record

Each material exception should document:

I. Exception ID
II. Requestor
III. Business justification
IV. Financial impact
V. Risk
VI. Proposed mitigation
VII. Approval
VIII. Expiration or review date

c. Temporary Exceptions

Exceptions should be temporary where possible.

An exception should not become a permanent operating model through repeated informal approvals.

---

25. Commercial Controls & Internal Audit

a. Control Environment

Finance and Commercial Operations maintain controls designed to reduce:

I. Fraud
II. Unauthorized spending
III. Incorrect billing
IV. Revenue leakage
V. Duplicate payment
VI. Contractual exposure

b. Control Testing

Controls may be tested through:

I. Internal audit
II. Finance review
III. Procurement review
IV. External audit
V. System reconciliation

c. Findings

Audit findings should contain:

I. Finding
II. Risk
III. Owner
IV. Corrective action
V. Target date
VI. Closure evidence

d. Material Findings

Material financial or commercial control failures are escalated to appropriate Finance and Executive Leadership stakeholders.

Appendix A. Sales Opportunity Checklist

- [ ] Customer identified
- [ ] Business need understood
- [ ] Decision process understood
- [ ] Budget assessed
- [ ] Timeline established
- [ ] Competition understood
- [ ] Delivery feasibility assessed
- [ ] Opportunity value entered
- [ ] Close date entered
- [ ] Probability assigned
- [ ] Next action defined
- [ ] Commercial approval completed
- [ ] Contract review initiated where required
- [ ] Delivery handover completed after Closed Won

Appendix B. Proposal Checklist

- [ ] Customer problem documented
- [ ] Scope documented
- [ ] Deliverables defined
- [ ] Timeline documented
- [ ] Assumptions listed
- [ ] Dependencies listed
- [ ] Customer responsibilities defined
- [ ] Pricing calculated

- [ ] Margin assessed
- [ ] Security requirements reviewed
- [ ] Privacy requirements reviewed
- [ ] Legal review completed where required
- [ ] Finance approval completed
- [ ] Delivery approval completed
- [ ] Final version controlled

Appendix C. Purchase Request Checklist

- [ ] Business purpose documented
- [ ] Budget confirmed
- [ ] Cost center identified
- [ ] Requirement specified
- [ ] Quantity specified
- [ ] Required date specified
- [ ] Supplier identified where applicable
- [ ] Competitive sourcing completed where required
- [ ] Security review completed where applicable
- [ ] Procurement approval completed
- [ ] Purchase order issued
- [ ] Receipt confirmed
- [ ] Invoice matched

Appendix D. Financial Close Checklist

- [ ] Revenue reconciled
- [ ] Accounts receivable reconciled
- [ ] Accounts payable reconciled
- [ ] Payroll reconciled
- [ ] Expense accruals recorded
- [ ] Bank accounts reconciled
- [ ] Intercompany balances reviewed
- [ ] Major variances analyzed
- [ ] Forecast updated
- [ ] Management reporting completed

Appendix E. Supplier Evaluation Framework

Category	Weight Example
Price	25%
Technical capability	20%
Quality	15%
Delivery	15%
Security	10%
Support	10%
Financial stability	5%

Weights may change depending on procurement category.

Nexora uses structured identifiers for important commercial records.

Identifier	Purpose
NXR-COM-007	Commercial handbook
NXR-OPP-2026-104	Sales opportunity
NXR-ACC-2026-031	Customer account

Identifier	Purpose
NXR-CON-2026-088	Contract
NXR-SOW-2026-117	Statement of Work
NXR-CR-2026-044	Commercial change request
NXR-PO-2026-0718	Purchase order
NXR-VND-2026-029	Vendor
NXR-EXC-2026-013	Commercial exception

Appendix H. Commercial Governance Calendar

Activity	Frequency
Sales pipeline review	Weekly
Forecast review	Weekly
Major opportunity review	Weekly
Strategic account review	Monthly
Financial close	Monthly
Business performance review	Monthly
Supplier performance review	Quarterly
Budget review	Monthly
Strategic planning	Annual
Procurement policy review	Annual

Appendix I. Related Nexora Standards

Commercial operations must be interpreted together with applicable Nexora standards.

Document	Relationship
NXR-CORP-001	Company, People & Corporate Governance
NXR-TECH-002	Product, Engineering & Software Development
NXR-INFRA-003	Cloud, Infrastructure & IT
NXR-SEC-004	Cybersecurity, Risk, Privacy & Compliance

Document	Relationship
NXR-DATA-005	Data, Analytics, AI & Automation
NXR-DEL-006	Customer Delivery & Customer Success
NXR-OPS-008	Legal, Operations, Continuity & Knowledge

Where contractual, legal, security, accounting, or regulatory requirements impose stricter obligations, the applicable stricter requirement must be followed.

Appendix J. Commercial Operating Principles

Nexora's Sales, Marketing, Finance, Procurement, and Commercial Operations teams operate according to the following principles:

1. Revenue must be sustainable.

Growth should be supported by delivery capability, healthy economics, and customer value.

2. The pipeline must represent reality.

Forecasts are useful only when opportunity stages, values, close dates, and risks are maintained accurately.

3. A contract is an operational commitment.

Commercial terms affect delivery, finance, security, procurement, and customer success.

4. Price is not the only measure of value.

Supplier and customer decisions should consider quality, risk, reliability, capability, and total cost.

5. Financial controls protect the business.

Approval workflows and segregation of duties exist to protect Nexora and its employees.

6. Customers should understand what they are buying.

Scope, deliverables, assumptions, dependencies, and acceptance criteria must be clear.

7. Marketing claims must be supportable.

External statements should be accurate, approved, and appropriate for the intended audience.

8. Suppliers are part of the operating ecosystem.

Third-party performance, security, resilience, and financial stability can affect Nexora's ability to serve customers.

9. Exceptions require accountability.

When normal controls cannot be followed, the exception, reason, risk, mitigation, and approval must be visible.

10. Commercial performance is a shared responsibility.

Sales, Finance, Delivery, Procurement, Marketing, Legal, Security, and Executive Leadership must work together to create durable business value.
